**Series 8800MPNH**

Master-Touch™ Series 8800MPNH flowmeters are intended for use in non-hazardous environments. They are insertion style flowmeters with all electronics mounted integrally on the sensor probe assembly. The standard configuration includes a 2-line, 16-character display and LightWire™ infrared communications capability. A variety of installation options are available, including ball valve retractor assemblies, tube to pipe compression fittings, and probe mounted flanges. Consult factory for details.
